ABOUT ME

Results driven professional expert with exploring experience in Systems programming, Full-stack development, and building AI/ML systems. Focused on implementing scalable solutions and solving real world problems, with growing expertise in AI based implementations.

EDUCATION

FAST NUCES, Lahore 2023–2027 (Exp.)
BS Computer Science
Government College and University, Lahore 2021–2023
FSc Pre-Engineering
Crescent Model Higher Secondary School, Lahore 2019–2021
Matriculation

EXPERIENCE

Full Stack Engineer (Intern) Jun 2026 – Present
NexCart – E-Commerce Platform *MERN Stack, Stripe, JWT, Google OAuth, Cloudinary*
Build production grade e-commerce platform features JWT & Google OAuth, multi products catalog, Stripe payment, real time order management, Cloudinary (images), and admin dashboard with revenue analytics and inventory control.
Frontend Developer (Upwork Freelancer) Jun 2025 – Aug 2025
Elite Digital – Marketing Agency Website *HTML5, CSS3*
Designed and developed a responsive digital marketing agency using HTML5 and CSS3, featuring a conversion-focused layout, contact flow, modern UI with CSS Grid and Flexbox and strong call-to-actions.

PROJECTS

AI Anomaly Detector & Learner (Full Stack) *Streamlit, Groq API, SQLite, ChromaDB, Python*
Self-evolving AI safety platform leveraging semantics learn with ChromaDB for misbehaviour detection, intent classification and hallucination mitigation, featuring LLM A/B comparison and optimized inference via Groq/Cerebras LPUs.
Maze RunnerGo (x86 Architecture) *x8086, BIOS interrupt, Video Memory*
BIOS interrupt-driven maze game with custom keyboard ISR, direct video memory rendering, 5-level maze system, real-time collision detection, and a SupraMan power-up mode built without any libraries.
CryptoWise – AI Crypto Platform (Full Stack) *React.js, Node.js, Groq & Binance API, Railway*
Full Stack Next.js and TypeScript platform with LSTM/XGBoost/Ensemble ML models, live Binance WebSocket feeds, GROQ-powered AI assistant, 6 trading bots, and NextAuth authentication.
Talaqqi – Quran Learning Platform (Full Stack) *Flask, WebRTC, Fast API*
Flask-based EDU tech full web platform with WebRTC video calling, WebSocket chat, interactive Mushaf viewer with annotation CRUD, role-based auth, and Repository plus Service Layer design patterns.
Multi Source Research Assistant (NLP) *PubMed & arXiv API, Streamlit, Python*
RAG-powered academic tool integrating arXiv and PubMed APIs with FAISS vector search, flan-t5-large summarization, semantic paper clustering, and a Streamlit interface for unified research workflows.
FLex – Course Registration Portal (Full Stack) *React.js, Express.js, Node.js, SQL, REST APIs*
React.js and Express.js full stack student course registration portal with JWT authentication, SQL Server database, admin dashboard for course management, password reset flow, and session-based secure login/logout system.

SKILLS

Languages: C++, C, Python, JavaScript, SQL
Web Dev: HTML, CSS, JavaScript, React.js, Node.js, REST APIs, MERN Stack, Next.js, SQLite
Technical: Data Structures & Algos, OOP, OS, Computer Networks, x86 Assembly, DBMS, Artificial Intelligence
Data & AI: NumPy, Pandas, Matplotlib, AI-based Graphic Design, Model Training for AI Analysis
Tools & Platforms: Streamlit, Git, GitHub, VS Code, Linux, MySQL, Figma, Firebase, MongoDB, ChromaDB
Soft Skills: Problem Solving, Team Collaboration, Technical & Professional Documentation, Presentations

ACHIEVEMENTS

- 3x CAA Civil Aviation Scholarship - HVAC, 2021, 2023 & 2026
- Runner-Up, UHE Computing Fest - AI Hackathon Competition, 2026

INTERESTS

- Competitive Programming
- Outdoor Adventures and Trips
- Cricket and Football
